State Health Plan

FOR TEACHERS AND STATE EMPLOYEES

A Division of the Department of State Treasurer

2015 North Carolina State Health Plan Preferred Drug List Traditional Pharmacy Benefit

Please take this list with you to every provider visit and save money when your provider prescribes lower-cost Tier 1 medications.

Effective October 1, 2015

What is a preferred drug list?

A preferred drug list is a list of cost-effective medications covered by your prescription drug plan. The State Health Plan preferred drug list has been compiled with guidance from a committee of North Carolina physicians and pharmacists organized by the State Health Plan. It includes medications made by most pharmaceutical manufacturers and for a variety of conditions.

Tier 1 Most cost-effective medications, which includes mostly generic drugs

Tier 2 Preferred brand medications, including some high-cost generic drugs and compound drugs**

Tier 3 Non-preferred brand drugs

Tier 4 Preferred specialty medications, including some Biosimilars*

Tier 5 Non-preferred specialty medications including some Biosimilars*

What are my copays?

Using generic or preferred medications can help you save money on your prescriptions. When you use a medication on the preferred list, your copay will be:

	(Up to a 30-day supply)	(31–60-day supply)	(61–90-day supply)
Tier 1	\$12	\$24	\$36
Tier 2**	\$40	\$80	\$120
Tier 3	\$64	\$128	\$192
Tier 4*	25% coinsurance up to \$100 for each 30-day supply.		
Tier 5*	25% coinsurance up to \$125 for each 30-day supply.		

Non-specialty brand-name drugs with a generic available—Members must pay the Tier 1 copay plus the difference between the Plan’s cost of the brand drug and the Plan’s cost of the generic drug not to exceed \$100 per a 30-day supply of the brand medication.

*Specialty Drugs and Biosimilar are medications that are often used to treat complex diseases, require special administration, dosing and handling, and typically prescribed by a specialist provider and are high in cost. For a complete listing of Specialty Drugs, please visit www.shpnc.org and click on “Pharmacy.”

**Traditionally all generic medications have been in Tier 1. With the introduction of many high-cost generics with lower cost alternatives, some high-cost generics may be placed in Tier 2.

Why should I use generic drugs?

Ask your provider to authorize generic substitution whenever a generic alternative is available. You will save money using generic drugs, because they will have either a Tier 1 or Tier 2 copay. Please note that generic Specialty Drugs (defined above) will be subject to a 25% coinsurance up to \$100 or \$125 for each 30-day supply.

Food and Drug Administration (FDA)-approved generic drugs, like brand-name drugs, must meet established FDA standards of quality and purity to help ensure their safety and effectiveness. Generic medications have the exact same active ingredients as their brand-name counterparts, and they are equal in strength and dosage. Sometimes drug manufacturers use different inactive ingredients, such as fillers and dyes, to provide a drug’s shape, color, size, and taste.

By prescribing generic and preferred brand-name medications, your provider can help you save money. Remember to take this list with you each time you visit your provider.

In general, prescriptions filled with generic medications are the most cost-effective options. Many high-cost generics on the market today have several lower cost alternatives. Some of the high-cost generics may be placed in Tier 2. Ask your provider or pharmacist whether a Tier 1, lower cost generic medication is appropriate for you. Overall, generics may help reduce your prescription expenses. Also be sure to shop around for your generic prescriptions. The **ESI Home Delivery Pharmacy** (the State Health Plan’s mail-order pharmacy) and many retail pharmacies now offer certain generics for \$10 for a 90-day supply. Each pharmacy has a unique program with a different list of covered generic medications. Be sure to check the list of discounted generics and current prices at each pharmacy to see if the generic you are taking is offered at the discounted rate.

State Health Plan members have access to **My Rx Choices**®, a powerful tool to help you save money on your prescription drug costs. All you need to do is to visit www.shpnc.org and click on “Pharmacy.” Then follow the link on this page to the Express-Scripts website. If you are a first-time visitor to Express-Scripts.com, please take a moment to register. Once you log on to Express-Scripts.com and follow the registration instructions, you can click on **My Rx Choices**® to begin looking for opportunities to save money on your prescription drugs. **My Rx Choices**® will provide you with cost-saving alternatives to medications you already take, as well as medications you may take in the future. Those alternatives may include generic equivalents, generic alternatives, lower-cost brand-name alternatives, over-the-counter medications or, in some cases, using the **ESI Home Delivery Pharmacy** (your mail service pharmacy option). While using the Express-Scripts website, you may receive helpful information and notifications on ways to improve your medication therapy. These notifications are designed to help close “gaps in care” and optimize your treatment.

If you do not have access to the Internet, you may call Express-Scripts Member Services at **1 800 336-5933** and a Express-Scripts Member Services representative or pharmacist can review your **My Rx Choices**® savings opportunities with you over the phone.

Please note: This preferred drug list is not a complete list of preferred drugs. In some cases, **the State Health Plan may have certain coverage limits. Drugs marked with an asterisk (*) require prior authorization or may be subject to quantity limits. All medications that require a coverage review may not be listed in this guide.** In certain rare instances, a drug may be in the highest copay tier but may be preferred in a step therapy program. Refer to your benefit materials or call Express-Scripts Member Services at **1 800 336-5933** for specific coverage information. This list is subject to change.

The information contained in this guide was current at the time of posting and is subject to change without notification. Please visit www.shpnc.org or call Express-Scripts Member Services at **1 800 336-5933** to receive information regarding your prescription drug benefit.
